

## Since September

First one out the door that day  
Never had the chance to say goodbye  
I picture you as you made your way  
Through the morning rush  
And the clear blue autumn sky

Haven't seen you since September  
Still I hold you every day  
And your warm love I remember  
Will never fade away

It was the furthest thing from all our minds  
And now we're all but lost in time  
Hours of watching TV news praying for a glimpse of you  
Now the memories are all that's left behind

Haven't seen you since September  
Still I hold you every day  
And your warm love I remember  
Will never fade away

## Pataki (Sacred Ground)

Mr. Pataki's Words:

"And yes we are going to rebuild lower Manhattan and it will be better than it was on the morning of September 11th and yes we will rebuild the rest of this city and the rest of this state to recover from September 11th....

But we will never build where the towers stood.....it will always be permanent and a lasting memorial to those who v lost..... Where the towers stood.....Where the towers stood is hallowed ground. Thousands of American Heroes die there just as thousands of American Heroes died at Gettysburg".

My Words:

We met you in Manhattan in June 2002  
United in our sorrow you swore you'd see us through  
Well we all cheered right through our tears  
When your words rang through this town  
You made a promise we would never build  
On top of Sacred Ground

Will your words come back to haunt you  
Will they keep you up at night  
You've got the power and the duty  
To preserve this Sacred Site  
Mr. Governor for our heroes  
That were lost but never found  
Keep your promise to protect this Sacred Ground  
Keep your promise to the Families  
And protect this Sacred Ground

## Three Years Gone

Three years gone since I lost you  
Three years since you were taken away  
Through the tears and the sadness, the anger, the madness  
I loved you every day

There's so much I wish I had told you  
So much that I meant to say  
But the four things I would say to you  
If you were with me here today

I will always love you  
I will always miss you  
I will always hold you  
I will always kiss you

Three years gone since I lost myself  
Three years inside my head  
Caught up in the things that might have been  
It's been so hard to look ahead

Another year of days without you  
Another year of nights I prayed  
For my dreams to send me to you my friend  
Just to have you one more day

I will always love you  
I will always miss you  
I will always hold you  
I will always kiss you

The simple things we used to laugh about  
That only you and me would understand  
The midnight talks and the morning walks  
And the way you held my hand

Three years gone since I lost you  
Three years since you were taken away  
Through the tears and the sadness, the anger, the madness  
I loved you every day

And I will always love you  
I will always miss you  
I will always hold you  
I will always kiss you

I will always love you  
I will always miss you  
I will always hold you  
I will always kiss you

## Land of the Free

For all that may have fallen  
You will not be forgotten  
For those who gave their lives that day  
Or had them taken away  
Our nation is united  
Sure as the noble eagle flies  
America will rise above and secure her liberty

Land of the free  
Home of the brave  
Red white and blue from the cradle to the grave  
We raise our flag for all the world to see  
America will always be  
Home of the brave  
Land of the free

High above the Towers  
That graced the New York sky  
Far beyond the Pentagon  
Where noble eagles fly  
One nation undivided  
Determined to be free  
And safe to live our lives in peace from sea to shining sea

Land of the free  
Home of the brave  
Red white and blue from the cradle to the grave  
We wave our flag for all the world to see  
America will always be  
Home of the brave  
Land of the free

Dedicated to the Families of September 11, 2001
